

Swing-N-Slide designs and manufactures swing sets for customer installation. Most sets can be installed in a day or less. We do recognize that time constraints may prevent you from personally installing your swing set. Therefore, we offer a list of local installers as a convenience to our customers. We do not warrant or represent any installer or install transaction - only the swing set as stated in the owners manual. Each installer is responsible for quoting the cost of installation and any other requested service. All of the installers listed here have agreed to install according to the owners manual that we provide with the kit. Please contact your local installer directly.

Nationwide Coverage available from UX Logistics - Call 888-489-2845 or email to assembly@uxlogistics.com - View the website at www.UXLogistics.com
